Dear Parent/Guardian:

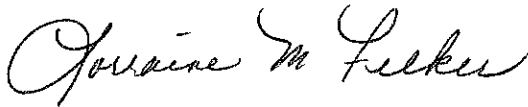

Enclosed please find a Medical Plan of Care for School Food Service provided by the US Department of Agriculture. The purpose of this form is to help us better ensure your child's dietary needs are taken care of while he/she is in our schools.

If your child has any food allergies, we are required to have this form completed and signed by your physician by the start of the 2015-2016 school year. The completed form should be forwarded to your child's school office to the attention of Mrs. Laura Schaeffer, School Nurse. The information on the form is confidential and will be disclosed to our food services staff only as necessary.

Should you have any questions or concerns, please do not hesitate to contact Mrs. Kim Umphrey in our Business Office at 570-385-6705 during normal business hours.

Thank you.

Sincerely,

Lorraine M. Felker
Superintendent of Schools

Enclosure

**Medical Plan of Care for School Food Service
(Students with Disabilities and Non-Disabling Special Dietary Needs)**

The following child is a participant in one of the United States Department of Agriculture (USDA) school nutrition programs.

- USDA regulations 7CFR Part 15B require substitutions or modifications in school program meals for children whose **disability** restricts their diet and is supported by a statement signed by a **licensed physician**. Food allergies which may result in a severe, life-threatening (anaphylactic) reaction may meet the definition of "disability."
- The school may choose to accommodate a student with a **non-disabling special dietary need** that is supported by a statement signed by a **recognized medical authority** (physician, physician assistant or nurse practitioner).
- The school food authority may choose to make a milk substitution available for students with a **non-disabling special dietary need**, such as milk intolerance or for cultural or religious beliefs. If the school food authority makes these substitutions available, the milk substitute must meet nutrient standards identified in regulations. If available, this will be indicated in Part 2. A parent/guardian or **recognized medical authority** (physician, physician assistant, or nurse practitioner) may complete this section. If this is the only substitution being requested, complete Part 1 and 2 only.

Part 1: To be completed by Parent/Guardian (all requests for special dietary needs)

Child's Name		Date of Birth	M	F
Name of School/Center/Program		Grade Level/Classroom		
Parent's/Guardian's Name		Address, City, State, Zip Code		
()	()			
Home Phone	Work Phone			

Part 2: Request for milk substitution for non-disabling special dietary needs only

School/school district does not make milk substitutes available to students with non-disabling special dietary needs. Do not complete Part 2.

School/school district provides _____ as a milk substitute to students with non-disabling or other special dietary needs when Part 2 is completed by Medical Authority or Parent/Guardian and approved by the school/school district.

Does the child have a non-disabling medical or special dietary need that restricts intake of fluid milk? Yes No
List medical or special dietary need (e.g., lactose intolerance or for cultural or religious beliefs):

Medical Authority or Parent/Guardian Signature: _____ Date: _____

Part 3: To be completed by Physician/Medical Authority

Disability/Special Dietary Needs

Does the child have a **disability**? Yes No

If Yes,
Please describe the major life activities affected by the disability.

Does the child's disability affect their nutritional or feeding needs? Yes No

If the child **does not have a disability***, does the child have special nutritional or feeding needs? Yes No
(*These accommodations are optional for schools to make)

If the child has a disability or special dietary/feeding need, please complete Part 4 of this form and have it signed and stamped with the office name and address of a licensed physician/recognized medical authority.

Part 4: To be completed by Physician/Medical Authority

Diet Order

List any dietary restrictions, such as food allergies, intolerances or restrictions:

List specific foods to be substituted (Substitution cannot be made unless section is completed):

List foods that need the following change in texture. If all foods need to be prepared in this manner, indicate "All."

Cut up/chopped into bite sized pieces:

Finely Ground:

Pureed:

List any special equipment or utensils needed:

Indicate any other comments about the child's eating or feeding patterns:

Physician's Name and Office Phone Number

Office Stamp

Physician/Medical Authority's Signature

Date

Part 5: Parent Signature

Date

Part 6: School Nutrition Program Signature

Date

Health Insurance Portability and Accountability Act Waiver

In accordance with the provisions of the Health Insurance Portability and Accountability Act of 1996 and the Family Educational Rights and Privacy Act, I hereby authorize _____ (medical authority) to release such protected health information of my child as is necessary for the specific purpose of Special Diet information to _____ (school/program) and I consent to allow the physician/medical authority to freely exchange the information listed on this form and in their records concerning my child with the school program as necessary. I understand that I may refuse to sign this authorization without impact on the eligibility of my request for a special diet for my child. I understand that permission to release this information may be rescinded at any time except when the information has already been released. My permission to release this information will expire on _____ (date). This information is to be released for the specific purpose of Special Diet information.

The undersigned certifies that he/she is the parent, guardian or representative of the person listed on this document and has the legal authority to sign on behalf of that person.

Parent/Guardian Signature: _____ Date: _____
(Signing this section is optional, but may prevent delays by allowing us to speak with the physician)

Please have parent/guardian review form annually and initial/date if no changes are required. Any changes require submission of a new form signed by the Physician/Medical Authority.

Parent confirmed no change in diet order. _____ Date _____ _____ Date _____ _____ Date _____

_____ Date _____ _____ Date _____ _____ Date _____ _____ Date _____

A copy of this form should be kept by the School Food Service and the Nurse. FERPA allows school nurses to share student's medical information regarding dietary needs with school food service.

Accommodating Children with Special Dietary Needs in the School Nutrition Programs

Accommodating Students with Disabling Special Dietary Needs

Schools participating in a federal Child Nutrition Program (School Lunch, School Breakfast or After School Snack Program) are required to make accommodations for children who are unable to eat the school meals because of a disability* that restricts their diet. In order to make modifications or substitutions to the school meal, schools must have a written Medical Statement on file that is signed by a licensed physician. The statement must identify:

- The child's disability
- An explanation of why the disability restricts the child's diet
- The major life activity affected by the disability
- The food(s) to be omitted from the child's diet
- The food or choice of foods that must be provided as the substitute

***Only a physician can declare if a student has a disability.**

Accommodating Students with Non-Disabling Special Dietary Needs

Schools may, at their discretion, make substitutions for students who have a special dietary need, but do not meet the definition of disability. Examples include food intolerances or allergies that do not cause life-threatening reactions. The decision to accommodate a student's special dietary need can be determined on a case-by-case basis, however, the school should remain consistent with accommodating special dietary needs. In order to make modifications or substitutions to the school meal, schools must have a written Medical Statement signed by a recognized medical authority identifying the following:

- An identification of the medical or other special dietary condition which restricts the child's diet
- The food or foods to be omitted from the child's diet
- The food or choice of foods to be substituted

In Pennsylvania, a recognized medical authority includes a physician, physician assistant, and nurse practitioner.

Milk Substitutions for Students with Non-Disabling Special Dietary Needs

For students with non-disabling special dietary needs which restrict their intake of fluid milk, the following applies.

- Parents/guardians or a recognized medical authority (physician, physician assistant, or nurse practitioner) may request a fluid milk substitute for a student with a non-disabling medical dietary need, such as milk intolerance, or due to cultural, religious or ethnic beliefs. The request must be made in writing.
- The written request from a parent/guardian or medical authority must identify the student's medical or special dietary need that prevents them from consuming cow's milk. Specifically referring to milk substitutions, a "special dietary need" can refer to cultural, ethnic, or religious needs, as well as medical needs.
- Nondairy beverages offered as a fluid milk substitute must meet the established nutrient standards, as indicated in Question 20 in USDA memo SP07-2010, available on PEARS Form Download, under Feeding Students with Disabilities and Special Dietary Needs Section.
- Juice and water cannot be substituted for fluid milk as part of the reimbursable meal even when requested by a physician. When fruit juice is merchandised as an option for a fruit/vegetable component, it can contribute up to 3/8 cup of the fruit/vegetable component. It cannot be offered in place of milk and it must be available to all students as an option.

Responsibility of Parents

- Notify the school of any food allergy, disability or special dietary need.
- Provide Medical Statement completed by a physician (disability), a recognized medical authority (non-disabling special dietary need), or the parent (non-disabling special dietary needs for milk only).
- Participate in any meetings or discussions regarding the student's meal plan. Maintain a healthy line of communication with the school.
- Notify the school of any changes relating to the special dietary need (a new Medical Statement is required if the diet changes).

School Food Service Responsibility

- Provide food substitutions for students according to Medical Statement. The school food service staff may not revise or change a diet prescription or medical order.
- Provide training to cafeteria personnel on how to properly accommodate students with special dietary needs. Maintain documentation of this training.
- Communicate with parents, staff, and medical authorities regarding diet modifications.
- Maintain Medical Statement on each student with a special dietary need. Diet orders are not required to be renewed on a yearly basis, however, PDE recommends that you confirm, on a yearly basis, the diet order has not changed. If there are any changes to the diet, a new Medical Statement is required.
- If the school is opting to make a milk substitute available for non-disabling dietary needs, research products to ensure they meet the USDA nutrient standards for a milk substitute. Notify the Division of Food and Nutrition if you are making milk substitutes available for non-disabling special needs.

School Nurse Responsibility

- Collaborate with food service director, school staff, parents, and physician to appropriately share pertinent information, obtain a copy of Medical Statement, and accommodate students with special dietary needs.
- Develop medical plan of care as appropriate (Individualized Healthcare Plan).

Other Federal regulations

Based upon Federal laws that prohibit discrimination and ensure equal access to education, some students may have instructions for accommodating their special need written into a 504 Plan or an Individualized Education Plan (IEP). Typically, a team consisting of the school professionals and the parents collaborate to develop these plans. If the 504 Plan or IEP involves special dietary needs, the food service director should be involved.
